- Thermo-acoustic window glass, double-glazed with insulating air chamber.

PAINTWORK

- Internal: light coloured smooth plastic paint on walls, and white on ceilings.
- External: In areas to be painted, a top quality stone-effect paint or a single payer cladding will be used.

MISCELLANEOUS

- Common areas with swimming pool and landscaped areas.
- Garages and store rooms.

NOTES:

1. For technical reasons or causes beyond the control of the seller, the specifications listed here may be substituted with others and similar or super quality, without this having any effect on the price of the apartment.
2. Regarding the marble, we would point out that being a natural stone, it is subject to differences in tone and veins.
